WORK EXPERIENCE

TIAA Jan. 2020 – Present
Senior Developer *Iselin, NJ*
- Implement user stories to the entire stack of a web application that handles enrollment requests for participants to receive lifetime annuity payouts
- Design and develop business functionality in each facet of this web application, which consists of 6 Spring Boot web services, 5 Angular 2+ applications, and 4 Mule API's
- Conduct daily code reviews for a team of 3 developers in an agile environment
- Follow all code changes through deployment with Jenkins and Electric Flow, and troubleshoot any issues that arose along the way with OpenShift and Splunk

TIAA Jun. 2016 – Jan. 2020
Developer *Iselin, NJ*
- Lead development on a new Spring Boot/Angular 6 project to process asset verification for clients receiving annuities
- Worked on sunsetting a legacy application, built and maintained a single page application using Apache Freemarker and Spring MVC
- Designed and developed a microservice to return tax elections dependent on state, served as both Tech Lead and sole developer

Ridge Spur Media Oct. 2015 - May 2016
Web Developer *Philadelphia, PA*
- Created and designed Wordpress websites for business clients
- Modified existing templates using PHP to create custom designs
- Designed custom logos and assorted multimedia for clients using Adobe Photoshop

AstraZeneca May 2015 - Dec. 2015
IT Intern *Wilmington, DE*
- Prototyped feedback forms for pharmaceutical sales reps using Veeva and SalesForce
- Built web app that used a PHP script to translate over 200 pharma acronyms for IT Intern team
- Created technical documents to outline requirements for custom application built on Veeva platform
